

## Invitation to the International Classic Diver Meeting 2021

Dear friends of historical diving!

The 3rd corona wave in Germany is broken, the incidence numbers are steadily decreasing, all federal states are reducing the restrictive measures. We want to take advantage of this circumstance and immediately call an International Classic Diver Meeting. As already announced, this should take place in the middle of Germany for better accessibility.

**Date: 26.06.-27.06.2021**  
**Place: D-99734 Nordhausen**

Since we have not seen each other for a very long time, we want to use this meeting primarily for discussions among members and in small groups. The board is of the opinion that just this communication is the most important element for a fast revival of our association life. The contact of the members among themselves is of central importance, therefore for the first time no topic-specific specialized lectures will take place. In addition to the discussions with and among each other, we will of course create the opportunity for you to exhibit, exchange, buy and sell historical diving equipment.

The short notice in the preparation of this meeting forces us of course to some - we find however small - changes:

We will run Saturday as the primary event day. However, those who wish can arrive already on Friday. Sunday morning we want to use mainly for relaxed diving practice with helmet, KTG or two-hose regulator or.... use. The usual Saturday evening dinner will be a barbecue with beer and wine in the open air. Please have a look at the schedule.

About the corona situation in Nordhausen: As of 04.06.2021: The incidence was 16.78 (currently steadily decreasing). Thus, recreational sports and organized sports activities are allowed. There is NO obligation to present a negative test result. Only contact follow-up (contact form or Luca app) must be completed.

We will run the meeting on the premises of the diving club TSC Neptun Nordhausen. You can find information about this at [www.tsc-neptun-nordhausen.de](http://www.tsc-neptun-nordhausen.de). Cars can also be parked there. It is possible to stay overnight in cars, caravans, mobile homes, vans or tents. If you want to stay overnight in a hotel, you will find several possibilities in Nordhausen and surroundings. The area lies directly at the "diving lake", thus can be dived problem-free at any time.

## Schedule of the International Classic Diver Meeting 2021

**26.06.2021 – 27.06.2021**
